

Underground Expansion at the Mayo Clinic

Excavating Under an Existing Subway

Early Contractor Involvement

A Study of Geotechnical History

Cement Sustainability

The 2022 OPA winning team for the Mosul Dam Rehabilitation Project by Trevi

Nominations Being Accepted for DFI 2023 Awards

DFI is accepting nominations for the 2023 Outstanding Project Award (OPA), Distinguished Service Award (DSA) and the C. William Bermingham Innovation Award, which showcase and celebrate the achievements and contributions of individuals, teams and companies in the deep foundations industry. The submission deadline is **April 17**.

The awards are being presented at DFI's 48th Annual Conference on Deep Foundations in Seattle, October 31-November 3.

The **OPA** recognizes the superior work of DFI members. Each year, a project is chosen from geotechnical projects submitted for consideration by DFI members.

The **DSA** recognizes individuals who have made exceptionally valuable contributions to the advancement of the deep foundations industry.

The **C. William Bermingham Innovation Award** encourages and recognizes innovative contributions to deep foundations technology. The award pays tribute to the innovative spirit of Bill Bermingham, a DFI past president, and his contributions to DFI and the deep foundations industry.

More information about each award and nomination forms are available at www.dfi.org/events/awards.
